

2017 Tokaj Nobilis Hárslevelű Barakonyi

Tokaj, Hungary

Born and raised in Tokaj, Sarolta possess a strong maternal sensibility and keen awareness of the changes and challenges facing Tokaj - one of the best known yet most forgotten wine regions in the world. Beginning her career studying at the University of Horticulture in Budapest, she also took advantage of the recently fallen Iron Curtain and spent time in France, Italy and Spain. Upon returning to Hungary, she worked at Gróf Degenfeld and soon after became the inaugural winemaker at Béres Winery in nearby Erdőbénye overseeing 45 ha of vineyards. Preferring closer attention to detail and the total knowledge inherent in small-scale winemaking, she left and planted her own 6 ha in 1999. In 2005 she converted a traditional 19th century house into a winery and cellar in the middle of the town of Bodrogkeresztúr. In addition to dry and off dry bottlings of Furmint, Hárslevelű, Kövérszőlő, and Sarga Muskotály, she is also making incredible late harvest and Tokaji Aszú 5 and 6 Puttonyos. All her wines embrace a myriad of volcanic soils with remarkable aromatics and balanced acidity.

VINEYARDS

Barakonyi Vineyard Barakonyi rests on the backside of Fortess Hill (Varhegy) just north of the town of Bodrogkiszfalud and very close to the Zemplén forest. Originally classified in 1737, the name has origins dating back to the 14th century. The main component of the soil is rhyolite detritus locally referred to "powder." The top soil is very thin, hummus poor, and often absent in most places. The vineyard is planted to roughly 38% Furmint, 23% Hárslevelű, Kövérszőlő 28%, and 11% Yellow Muscat. Csirke-mál Vineyard The soil here is a mixture of heavy clay with exposed volcanic tuffa and hardened black andesite. Given its distance from the river and the exposure to wind, botrytis is kept at bay making it ideal for dry wine production. The previous owners left it about 30 years ago and it lay largely fallow until Sarolta starting bringing it back to life in 2004. Today the vineyard consists of roughly 75% Furmint, 10% Kövérszőlő, and 15% Sarga Muskotály.

WINE MAKING

Grapes are hand harvested and sorted both in the vineyard and in the winery. All single vineyard wines are fermented with native yeasts in 220 liter Hungarian Zemplén Oak barrels and aged on the less a minimum of 8 months until bottling. Half the barrels are new while the rest are two to three years old. The overall approach is minimal intervention, avoiding botrytis in the vineyard, focusing on a healthy spontaneous fermentation, and letting the vintage decide the balance of sugar, acidity and fruit.

NOTES & PAIRINGS

Because Hárslevelű is more loosely bunched than Furmint, it is less susceptible to Botrytis and is increasingly used on its own as a pure dry varietal white. Where many dry Tokaji wines are acid driven, Sarolta's wines are intensely mineral driven. Rich mouth feel, seemingly dry despite its residual sugar, and once given the chance to open up, incredibly distinct. There's also an amazing sweet and sour quality that lends itself to foods that play off of the same theme. Although deeply concentrated, works well as an aperitif.

ANALYTICS & PRONUNCIATION

PRODUCER: Tokaj Nobilis
APPELLATION: Tokaj (Tok-eye)
VINTAGE: 2017
GRAPE COMPOSITION: 100% Hárslevelű
CLIMATE: Continental (hot summers & cold winters)
SOILS: humus-poor top soil over rhyolite bedrock
EXPOSURE: Southern/Southeastern
MACERATION & AGING: 100% Hungarian 220L Oak
ALCOHOL: 12.5%
RESIDUAL SUGAR: 7.7 g/l
ACIDITY: 7 g/l
